Valencia University General Hospital. Valencia. Spain

Dr Xavier Sala-Blanch
Associate Professor of Anatomy
Staff Anesthesiologist. Department of Anesthesiology and Critical Care
Hospital Clinic i Provincial. Barcelona. Spain

TARGET AUDIENCE

This course is designed for pain practitioners (pain specialists, anesthesiologists, neurosurgeons) utilizing intrathecal drug delivery for pain management both in cancer and non cancer patients. The course is also interesting for those who treat severe spasticity.
Physicians attending the course should have at least 2 years of practice with ongoing use of neuromodulation techniques in the treatment of chronic pain and/or spasticity patients, and with basic knowledge of spinal analgesia using intrathecal drug delivery.

Our gratitude for the collaboration given by the following companies:

OBJECTIVES

- After participation in this educational meeting, participants should have an understanding of:
- 1.Basic neuroanatomy related with the performance of intrathecal drug delivery
 - 2.Current imaging and neurophysiology relevant for performing diagnosis and performing the intrathecal drug delivery for pain & spasticity treatment
 - 3.Identify questions that need to be addressed to increase knowledge of intrathecal techniques used in chronic pain treatment
 - 4.Current indications of Intrathecal drug delivery in chronic pain and recommendations for the evaluation and management of these pain conditions
 - 5.Evidence-Based recommendations and strategies in the patient screening and follow-up, in the management of intrathecal drug delivery analgesia
 - 6.Learning Case scenarios for the acquisition of critical assessment and management skills

ACCREDITATION

An Application has been made to the EACCME ® for CME accreditation of this event.
